ELVIR KAQANOLLI

Full-Stack PHP Developer · AI & Automation · Email Marketing

PHP developer with 5+ years building web applications, e-commerce stores and AI-powered tools for businesses in Kosovo and the Balkans. Also runs email marketing and push notifications for VIA eSIM and Ofertoj.com, bridging how products are built and how they reach customers.

EXPERIENCE

Email Marketing Manager — Sep 2026 – Present
VIA eSIM · Pristina

- Plan and run email and push notification campaigns for customers and leads
- Lead B2B outreach, influencer collaborations and the affiliate program

Email Marketing Manager — Sep 2026 – Present
Ofertoj.com · Pristina

- Set up email infrastructure, domain warm-up and deliverability
- Albanian-language campaigns and push notifications via Mailjet and OneSignal

Customer Service Specialist — May 2026 – Present
VIA eSIM

- Troubleshoot eSIM installation, activation and connectivity across devices
- Resolve order, payment and plan issues for travelers abroad

Web Developer — Jan 2026 – Present
Qkllup Agency · Pristina

- Build responsive, SEO-friendly websites and e-commerce stores for clients
- Handle backend, hosting and ongoing maintenance

General Manager — Jun 2023 – Sep 2026
Matrix Gaming Center

- Managed daily operations, staff and customer service
- Built the employee and shift management system in PHP
- Handled financial work: revenue tracking, expenses and reporting
- Technical fixer for PCs, consoles, network and equipment

Full Stack Engineer — Jan 2021 – Present
Self-employed

- E-commerce platforms with courier and supplier API integrations
- Booking, reservation and management systems with AI/LLM features

Founder — Jan 2021 – Dec 2023
TitanHost.al · Pristina

- Ran a hosting company for Counter-Strike game servers and VPS
- Linux server setup, uptime, security; sales, billing and support
